Clean ContentIE5: User Guide

(v1.026, 02-Apr-2010, 10:10 PM)

Disclaimer: The author of this product accepts no responsibility for damages resulting from the use of this product and makes no guarantees, warranty, or representation, either express or implied, including but not limited to, any implied warranty of merchantability or fitness for a particular purpose. This software is provided "AS IS", and you, its user, assumes all risks when using it.

1 Introduction

Clean ContentIE5 is a simple application that allows a user to clean out the various cache folders created by **Internet Explorer** (IE) versions **5**, **6**, **7** and **8**. The folders can make IE and the computer run slower.

2 Clean ContentIE5 Application

Clean ContentIE5 is easy to use:

2.1 Graphical User Interface

You can use the *Clean ContentIE5* GUI to run the program:

1. Run the program. The window in *Figure 1* will appear:

Figure 1: Clean ContentIE5main window.

2. Click *Start Search*, and wait for the folders to be located. A window with folders similar to those in *Figure 1* will appear:

Figure 2: GUI after Content.IE5 folders have been located.

3. Click *Clean Folders*, and wait for the files and sub folders to be removed.

Note: You will usually get error # 57 on index.dat files. This is normal and the error can be ignored.

2.1.1 Buttons/Options

2.1.1.1 Select/Deselect All

This option allows you to select or deselect all folders in the list below. If you like, you can selectively choose to only clean folders you like and remove the ones you do not want to clean by unchecking them.

2.1.1.2 Start Search

Starts searching for folders called **Content.IE5**.

2.1.1.3 Clear List

Clears the folder list, so you can start a new search.

2.1.1.4 Clean Folders

Removes all the files and subfolders under the selected folder(s) in the list below.

2.1.1.5 View Log

Open *Clean ContentIE5*'s log file in your default text editor (e.g., *Notepad*).

2.1.1.6 About

Provides version information about *Clean ContentIE5*.

2.1.1.7 Exit

Exits the program removing it from memory.

2.2 Command Line Interface

Use the following to command line parameters to run the application without interaction or errors:

/auto	Runs automatically, but shows the <i>Search/Clean</i> folders dialogs.
/hideerrors	Hides all dialogs and errors while running, so it can be run as a scheduled task.

Example:

```
C:\Program Files\Sunny Solutions\Clean ContentIE5\CleanContentIE5.exe /auto /hideerrors
```

3 Documents

3.1 User Guide

The **User Guide** can be opened in **Adobe Acrobat Reader**, and is accessed from the **Start** menu folder.

3.2 Release Notes

The **Release Notes** can be opened in **Adobe Acrobat Reader**, and is accessed from the **Start** menu folder.

4 Log Files

A log file is provided, where the results of errors are recorded. It is called *CleanContentIE5.log* and is located in the application installation folder; usually:

```
C:\Program Files\Sunny Solutions\Clean ContentIE5
```

Note: This file is not removed on application uninstall.

5 Running the Application

Clean ContentIE5 can be launched from the shortcut:

```
Start Menu | All Programs | Sunny Solutions | Clean ContentIE5 | Clean ContentIE5
Start Menu | All Programs | Sunny Solutions | Clean ContentIE5 | Clean ContentIE5 Hidden
```

6 Installation

The installation process is very simple. If you are provided a ZIP file (e.g. *SunnySolutionsMailer_1_08.zip*), then extract to a folder on your hard drive. Launch *Setup.exe*, which will prompt you through the installation process. You only need to click *Next* on each step and then *Close* at the end.

Note: This application uses Microsoft .NET Framework, v2.0 (at a minimum). If it is not already installed on your computer, it will ask you to download and install it from a Microsoft website. It may reboot after the install. If so, you will need to run the Mailer's install again. If you want, you can download and install the latest .NET Framework from this website prior to installation: <http://msdn.microsoft.com/en-ca/netframework/aa731542.aspx>

You can install a newer version over an older version without running the uninstall application. It will just remove the older version.

Note: On uninstall, the log files are not removed.

7 Technical Support

The best way to get technical support for **Clean** ContentIE5 Cache is to contact **Sunny Jamshedji** at **Sunny Solutions**:
